

MCKINLEY-WEST STATE

TRANSMISSION LINE REBUILD PROJECT

**INDIANA
MICHIGAN
POWER**

An AEP Company

BOUNDLESS ENERGY™

Indiana Michigan Power (I&M) representatives plan power grid upgrades to improve electric reliability for customers in western Fort Wayne. The McKinley-West State Transmission Line Rebuild Project involves updating about 3 miles of transmission line and upgrading a substation.

WHAT

The project involves:

- Rebuilding approximately 3 miles of transmission line
- Upgrading a substation

Company representatives plan to rebuild the transmission line in the existing right-of-way, although they might need to acquire new easements or supplement current easements to ensure the safe construction, operation and maintenance of the line.

WHY

The improvements:

- Strengthen the local electric transmission system
- Reduce the likelihood of power outages
- Speed recovery of service when outages occur

WHERE

The project area includes:

- Allen County
- City of Fort Wayne

PROJECT SCHEDULE

*Timeline subject to change.

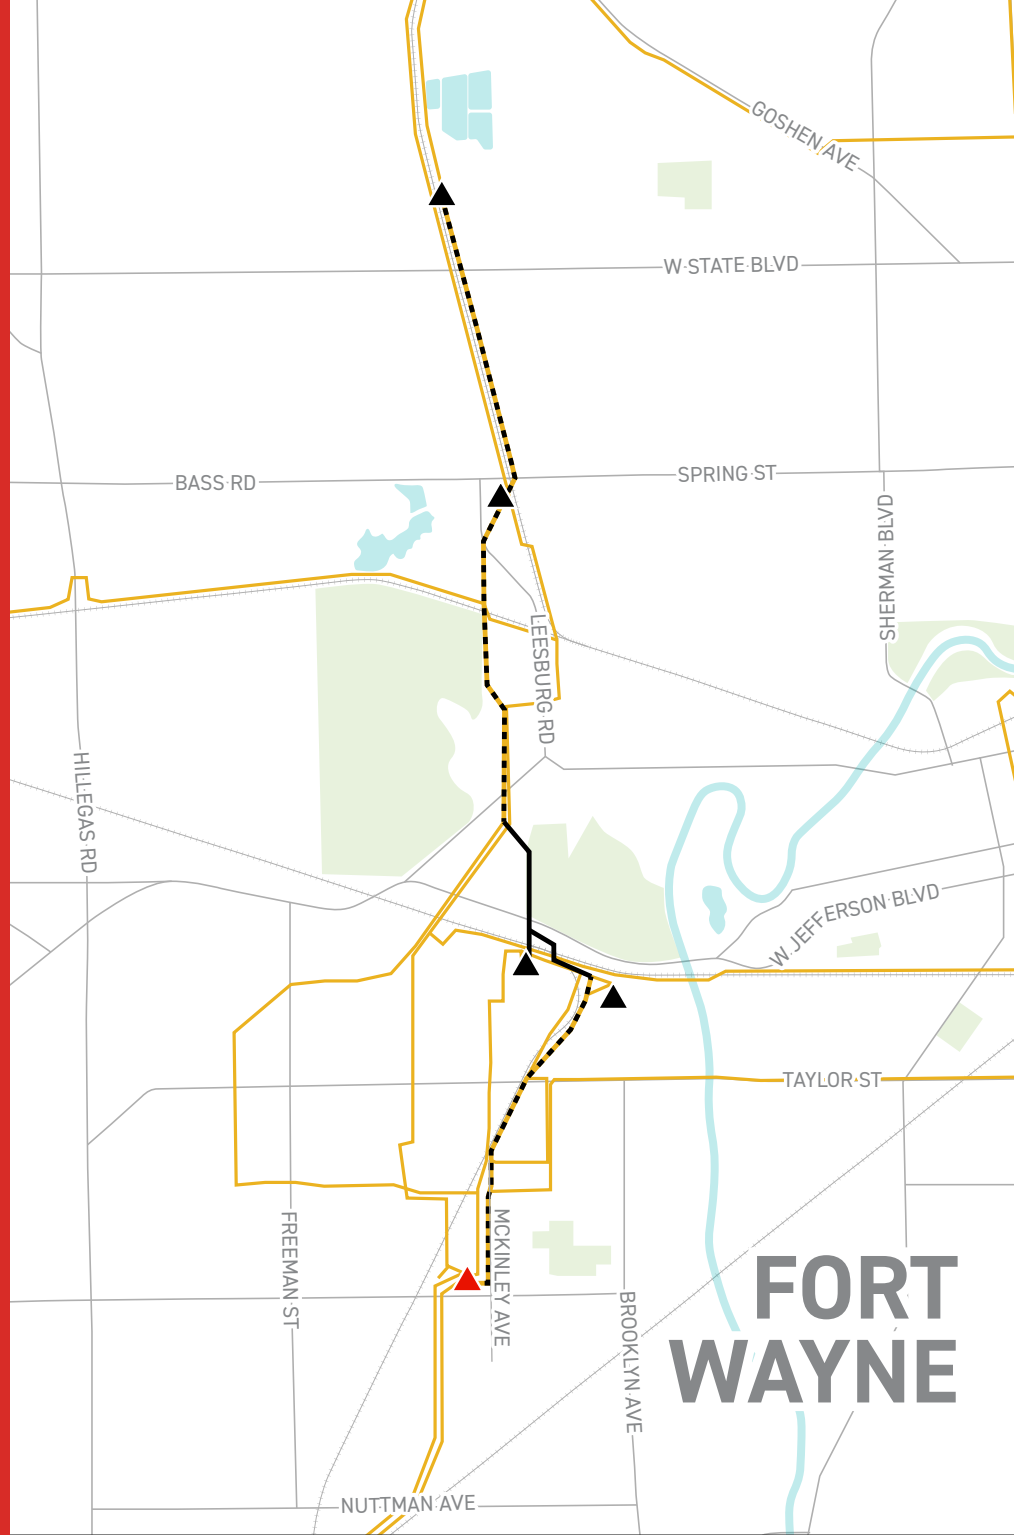

TYPICAL STRUCTURES

The project involves installing steel poles.

Structure Height: **Approximately 70 feet***

Right-of-Way Width: **Approximately 50 feet***

*Exact structure, height and right-of-way requirements may vary
