

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

Ohio officials propose power grid improvements in Pike County.

AEP Ohio representatives plan to build the Baku 765-kilovolt (kV) Substation off Wakefield Mound Road in Scioto Township. The new substation, part of the Piketon Area Improvements Project, supports a data center campus planned for the site of the former gaseous diffusion plant in Piketon, Ohio. The customer is committed to paying for the transmission investments needed to serve the site to help avoid increases to transmission rates for Ohio residents.

The accompanying map shows the project area. Please use this map only as a general guide due to its limited detail.

Company officials filed a Letter of Notification with the Ohio Power Siting Board (OPSB) for the substation as the Baku 765 kV Station Project, Case No. 26-0867-EL-BLN. Copies of the Letters of Notification, including specific details about the location and construction, are available for public inspection at the following locations:

- **Garnet A. Wilson Public Library of Pike County**, 207 N. Market St., Waverly, OH, 45690
- **Ohio Power Siting Board**, 180 E. Broad St., Columbus, OH, 43215-3793, (866) 270-6772, contactopsb@puc.state.oh.us

Electronic versions of the Letters of Notification are available at AEPOhio.com/PiketonArea and at the OPSB website at opsb.ohio.gov. Search under current cases for Case No. 26-0867-EL-BLN.

The following local city and county government officials have been served with a copy of the application as required by OPSB regulations:
