

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

AEP Transmission representatives plan power grid upgrades for customers in Scioto and Lawrence counties

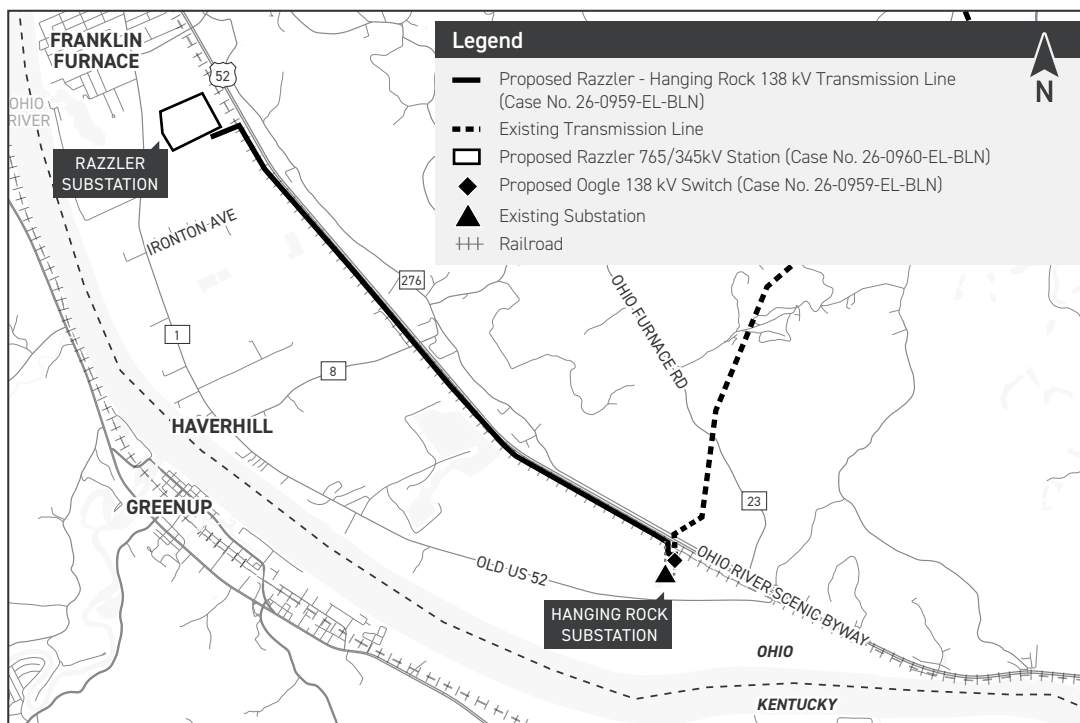

The Company proposes to:

- Build Razzler Station on customer-owned property off U.S. Route 52 near Franklin Furnace in Green Township, Scioto County.
- Rebuild and upgrade approximately 3.5 miles of existing 69-kilovolt (kV) transmission lines to 138-kV between the Hanging Rock Station and the proposed Razzler Station.
- Build Oogle Switch on AEP-owned property outside of the current Hanging Rock Station.
- Build 0.25 mile of temporary 138-kV transmission line on customer-owned property to provide temporary power to the site during construction.

The company needs to build the station, transmission lines and switch to serve a customer facility, which AEP Transmission is obligated to serve. If approved, construction begins early 2027 and concludes late 2028.

AEP Transmission officials have filed two Letters of Notification for these projects with the Ohio Power Siting Board (OPSB):

- Razzler 765/345 kV Station Project, Case No. 26-0960-EL-BLN. This component involves building Razzler Station.
- Hanging Rock – Razzler 138 kV Transmission Line and Oogle Switch Project, Case No. 26-0959-EL-BLN. This component involves rebuilding and upgrading approximately 3.5 miles between Hanging Rock and Razzler stations, building Oogle Switch and building 0.25 miles of temporary 138-kV transmission line to the site.

The Letters of Notification to construct, operate and maintain these facilities await OPSB review. The OPSB accepts motions to intervene in the Letters of Notification up to 10 days following the publication date of this notice. The requirements to intervene are included in Rule 4906-2-12 of the Ohio Administrative Code. Please address motions to Ohio Power Siting Board, 180 E. Broad St., Columbus, Ohio, 43215-3793 and cite Case No. 26-0960-EL-BLN or Case No. 26-0959-EL-BLN.

The accompany map shows the project area. Please use this map only as a general guide due to its reduced scale and limited detail.
