

Allen Station Expansion - Zodiac Transmission Line Rebuild Project

Indiana Michigan Power (I&M), part of the American Electric Power (AEP) family, is investing in new transmission assets in Allen County and Fort Wayne to support a customer's facility and help meet the area's growing energy needs.

What

The Allen Station Expansion - Zodiac Transmission Line Rebuild Project consists of:

- Expanding Allen Substation located off East Tillman Road.
- Building Zodiac Substation off East Paulding Road.
- Rebuilding approx. 4 miles of parallelled transmission lines between Allen and Zodiac substations.
- Relocating approx. 1 mile of transmission line to accommodate a city project which will expand off Adams Center Road.
- All necessary easements, filings and required permits are secured for work on company owned property to move forward responsibly, in full compliance.

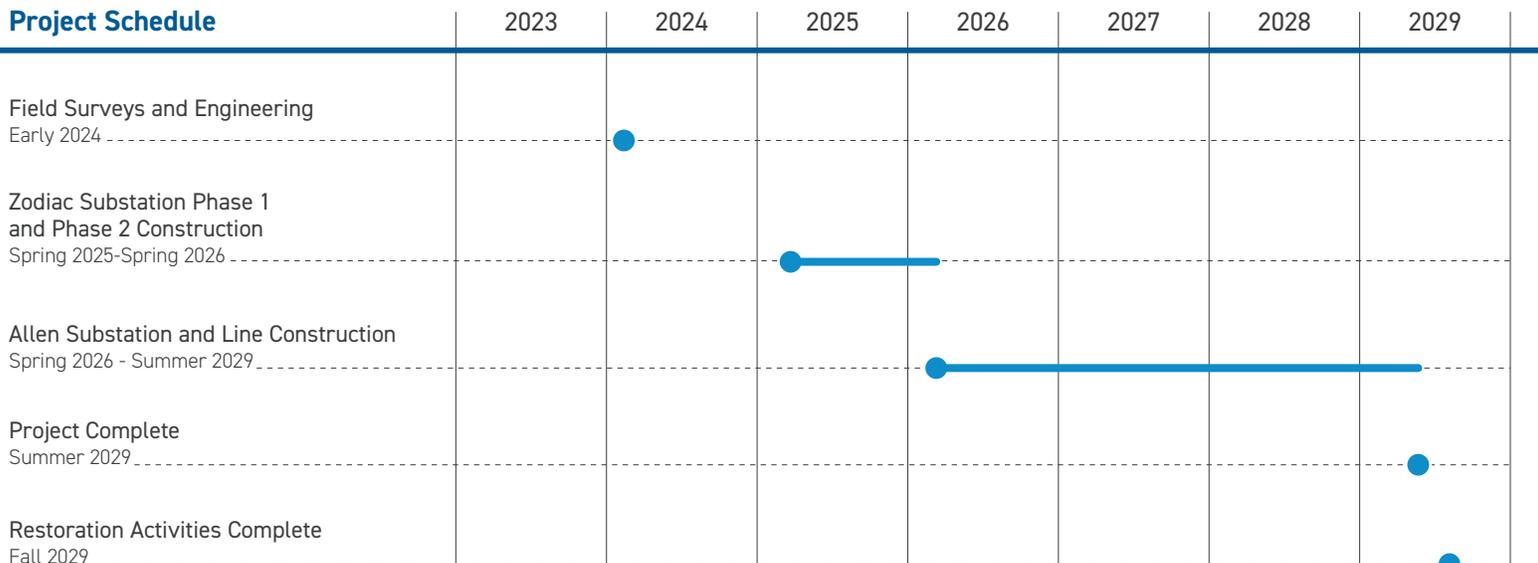

Why

- Indiana Michigan Power (I&M) is committed to serving new customers and building transmission assets to meet the area's growing electrical demand.
- I&M has an obligation to serve new customers.
- Station expansion and line upgrades increases the capacity and reliability of the local and regional power grid. Allen Station is pivotal to Fort Wayne infrastructure and enhances reliability.
- Large load customers may provide opportunities to reduce or sustain area electric rates and support local community facilities and programs.
- Increased height of single poles compared to previous lattice infrastructure provides additional clearance for farming equipment.

Environmental

I&M strives to deliver affordable, reliable electricity while protecting the environment in compliance with federal, state and local applicable requirements. Company representatives secure all necessary easements, filings and required permits for work on company owned property to move forward responsibly, in full compliance.

Project Schedule

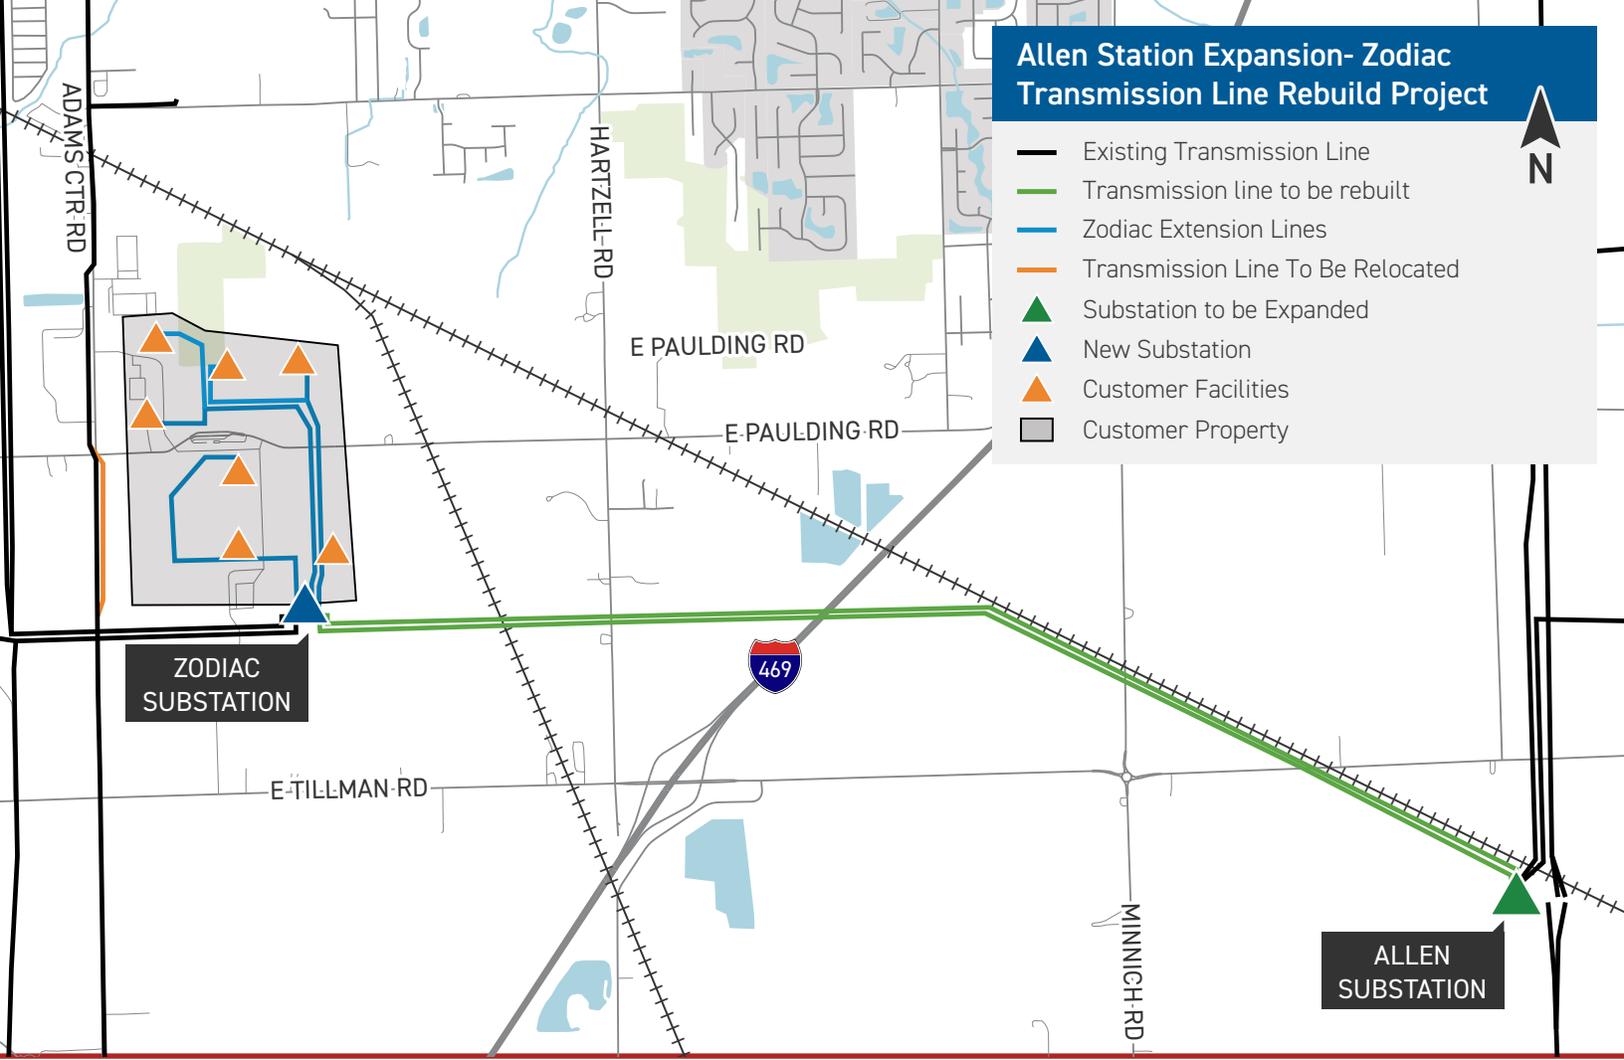

**Timeline subject to change.*

Allen Station Expansion- Zodiac Transmission Line Rebuild Project

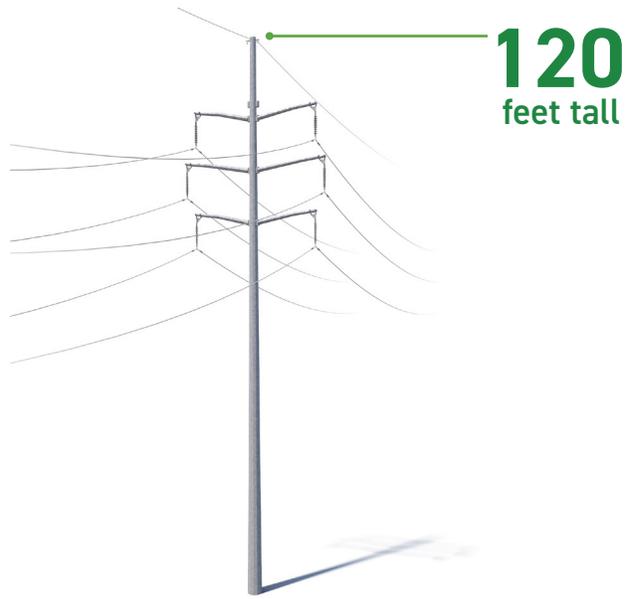

-  Existing Transmission Line
-  Transmission line to be rebuilt
-  Zodiac Extension Lines
-  Transmission Line To Be Relocated
-  Substation to be Expanded
