

# NOTICE OF PROPOSED MAJOR UTILITY FACILITY

AEP Ohio Transmission Company, Inc., (AEP Ohio Transco) proposes to relocate a 138 kilovolt (kV) transmission line in York Township in Athens County.

This is the second public notice for this project. We are slightly shifting the location of the transmission line on our property.

The purpose of the Lemaster-Strouds Run 138 kV Transmission Line Relocation Project Update is to relocate an existing 138 kV transmission line on property owned by AEP Ohio Transco. This project will help improve and maintain the electric service reliability in Athens County and the surrounding area. AEP Ohio Transco will build the new line using standard single-pole, steel structures. The Lemaster-Strouds Run transmission line relocation is less than a half mile long. This project will be an approximate \$1 million investment by AEP Ohio Transco. Construction is scheduled to begin in March 2018.

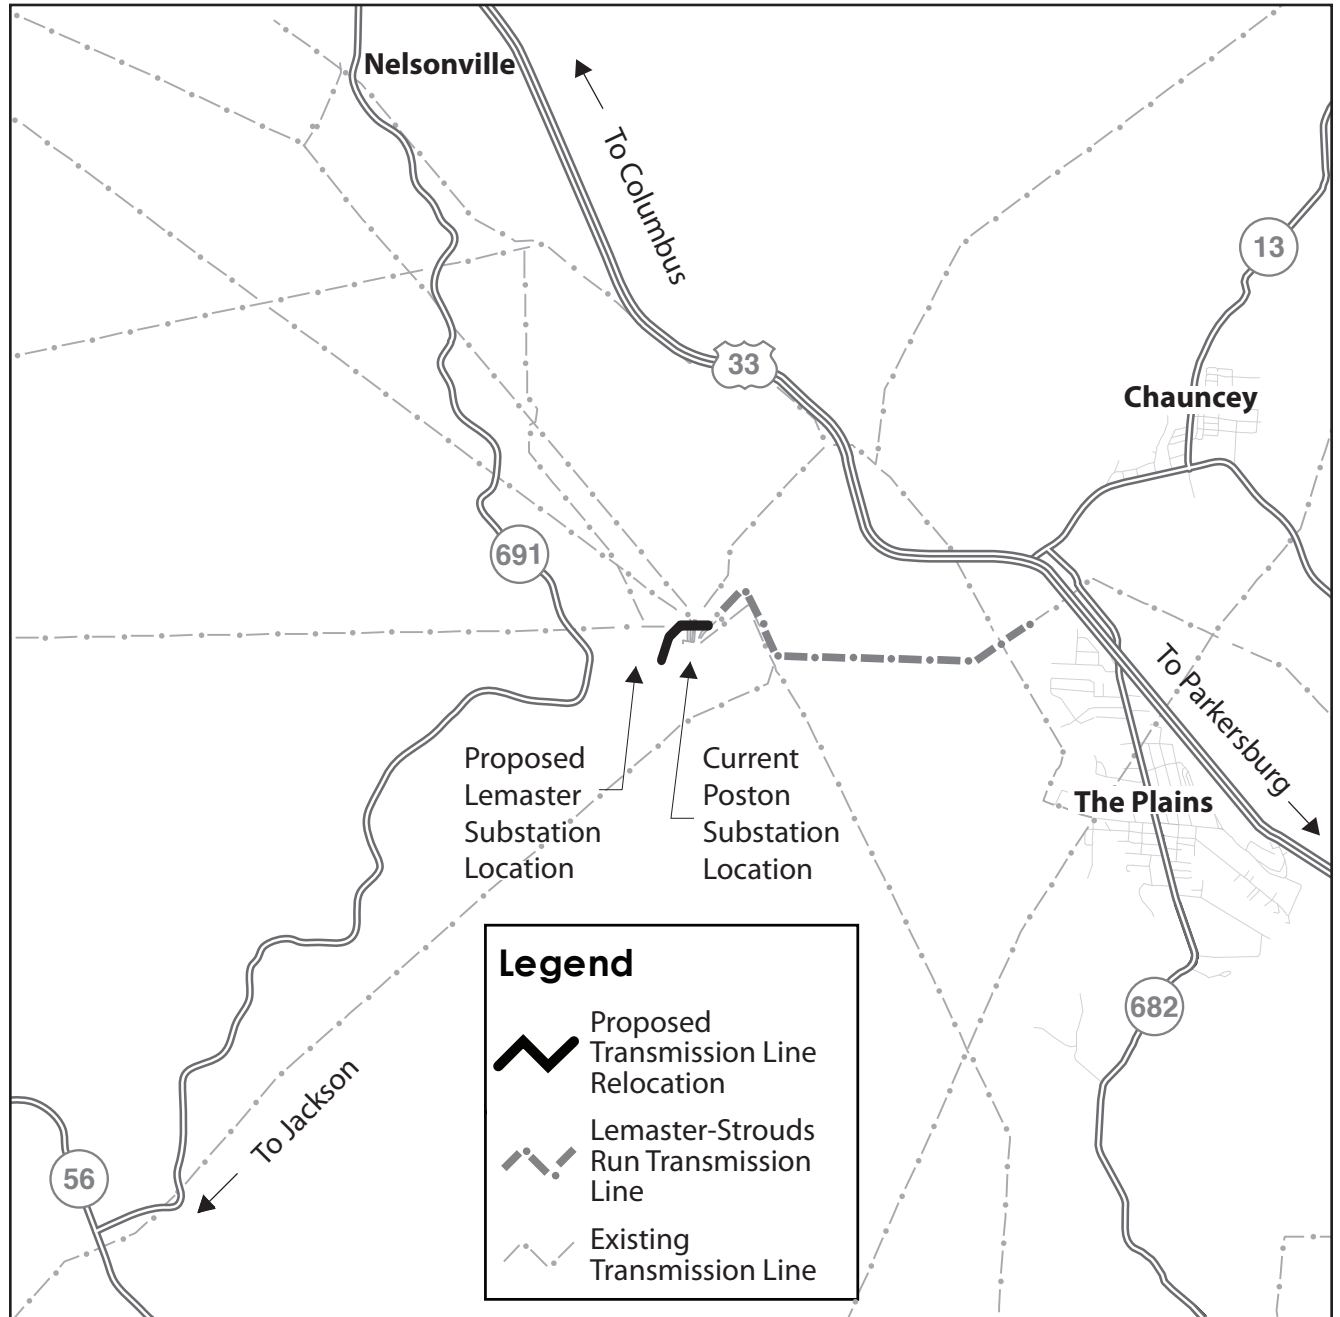

The project is known as the Lemaster-Strouds Run 138kV Transmission Line Relocation Project Update. AEP Ohio Transco has filed a Letter of Notification with the Ohio Power Siting Board, under Case No. 17-2441-EL-BLN. This number should be included in all communications with respect to this project. The Letter of Notification to construct, operate and maintain this facility is pending before the board.
